

7 | STEDELIJK // SKETCHES & FINAL POSTER 3

STEDELIJK, CATHEDRA

My third poster is for the Stedelijk museum painting “Cathedra” which is a big blue painting with a white strip running down it. I loved all the different values of blue are in the painting and how they create deapth so I wanted to highlight that in the painting. I started with just putting it in the text which I didn’t love and then I had the idea to make the blues swatches which I loved.
