

5 | AROS // FINAL POSTER & SKETCHES 2

AROS

This poster is for the Aros museum and features one of their installations called “No Man Is an Island.” This installation is a black Lamborghini that invites visitors to come scratch it up. When making the poster I was very drawn to the scratched words so I drew the text for the poster in the same style. I wanted it to appear to look like it could’ve been on the car. I also got the colors from the car.
